

Lighthouse International School

Lighthouse International School provides a Day School Program. It focuses on the holistic development of the child together with the families' wellbeing.

Lighthouse aims to develop the School Education Model that consists of the following relevant skills in Early Learning and they are:

- a. Play Skills
- b. Social Skills
- c. Communication Skills

The system has different focused areas of development that can help Lighthouse children to thrive in various school settings they are in. If they are geared with the skills, they will certainly grow and show confidence in what they do. Hence, the goals for the child will be set and success is within reach, and they need to feel accomplished in every endeavor they undertake.

Children are drawn to make their educational discoveries and they learn with intention and meaning. The system can only be achieved if children are provided enough support through educators, parents, specialists, childhood development professionals and of course the environment.

Daily Activities

Circle Time

It is THE moment where children learn more on how to interact and engage with the teacher and peers. It is filled with music, fingerplays, rhymes and concepts to talk about that are developmentally appropriate and according to their own learning intent. The discussions are always led by the children rather than adults and in this way, the learning moments will be more productive and pragmatic in their daily lives.

Outdoor Play

Nature is a part of the world. The children are the future stewards of the earth. The children will be given opportunities to explore and love the amazing surroundings at the same time, they will be educated on how to be responsible in looking after the environment.

Outdoor play is a chance for the children to engage and discover themselves. Hence, the outdoors are great avenues for learning and making sense of the world.

Playful Learning time

Moments wherein children learn more and understand about themselves is the fact that they get these opportunities through play and discovery. Children will have more understanding and thinking about what they do in and out of the classroom.

Snack Time/Lunch Time

Snack time/Lunch time is the time that children will sit together and have a chance to be at the table and have a sense of family that eats together with respect and kindness to one another.

Afterschool Program from Lighthouse Creative Center and Academic Support (Elementary Students)

One of the unique features of Lighthouse is that the centers have amazing afterschool programs, learning assistance and specialized skills training in play, communication and social integration. Lighthouse works hand-in-hand in these programs to further facilitate learning and establishing goals of education for the children and the family.
